EDUCATION

B.S. in Information Technology — Pampanga State University - *Cum Laude* 2026

EXPERIENCE

Software Developer Intern — Information Technology Business Solutions Corp. Feb - May 2026 (*3 mos*)

Mexico, Pampanga

- Built a 4-dashboard enterprise GIS platform from scratch in Vue 3, Tailwind CSS, and Bootstrap 5, integrating MapLibre GL JS and Turf.js for live satellite map overlays.
- Centralized 6+ scattered API calls and automated data fetching with Axios and Promise.all, then migrated the frontend POC into a production PHPMaker + PostgreSQL environment across an 81-table schema.
- Redesigned 7 modules of a government system (LTO-VRMIS) in Figma and designed 7 corporate logos for internal projects, while collaborating via Git branching and Pull Requests.

Brand Designer — ARGUS COFFEE & TEA. Aug 2023 - Jan 2024 (*5 mos*)

Angeles City, Philippines

- Designed the official company logo and core brand identity using Adobe Illustrator, establishing a distinctive, cohesive visual presence for the brand.
- Created ongoing social media posters and promotional content using Adobe Photoshop and Canva, while establishing brand guidelines for consistent use of logo, typography, and color palette across all marketing materials.

Outsource Graphic Artist — SUGAR CAFÉ PH. Mar 2022 - Jun 2023 (*1 yr 3 mos*)

Angeles City, Philippines

- Designed promotional posters and marketing mockups using Canva and Adobe Illustrator/Photoshop to support advertising campaigns and brand visibility.
- Produced and edited video content for advertisement, collaborating with the creative team to deliver consistent, high-impact visual content across formats.

PROJECTS

PSHE Wordmark & Logo Redesign — Philippine Stewards for Humanity and Excellence, Inc. 2026

Tools: Adobe Illustrator · Adobe Photoshop

- Designed a custom wordmark and led a full logo redesign, translating its four core values into a unified navy-and-gold visual system with multiple brand variants and formal design rationale documentation.

Juvelink — Case Management & Scheduling System with RFID-Based Inventory Monitoring. 2025 - 2026

UI/UX Designer | Tools: Figma | Skills: Wireframing, Prototyping, Responsive Design

- Designed the complete UI/UX for a case management platform in Figma covering a public-facing site and an admin panel fully responsive across desktop and mobile, in collaboration with the project team.

Bangketa App — Bangketa Eskwela Foundation Inc. Volunteer Management and Announcement Platform. 2025

UI/UX Designer | Tools: Figma | Skills: Wireframing, Prototyping, Responsive Design

- Designed the complete platform for a nonprofit's volunteer system including the public-facing site and admin panel while collaborating directly with the NGO's CEO on requirements, fully responsive across desktop and mobile.
